

Omega-3 Oil

Big health for little buddies

Seal in some health for your furry friends!

Omega-3 seal oil is the *purrfect* supplement because it contains not only DHA and EPA, but also DPA – a third powerful omega 3 fatty acid that enhances the amount of the other omega 3s in the body.

Your vacuum will thank you

Seal oil is fantastic for your pet's skin and hair. It's also beneficial to cats and dogs that are prone to rashes and other skin conditions. The shedder in your house can enjoy a clean, strong, shiny coat and you can enjoy less fur everywhere!

Good luck keeping them off the furniture

Pet owners know it's no fun when your animal's joints start to wear down. This is common in larger dog breeds, but occurs in smaller ones and cats too. Seal oil reduces inflammation, while maintaining healthy muscles and bones, so invest in some solid shoes and enjoy years of running and jumping!

Wholesale and retail opportunities

Carino Pets is currently available in the following pack sizes:

- 250ml bottle, 16 bottles/case
- 500ml bottle, 16 bottles/case

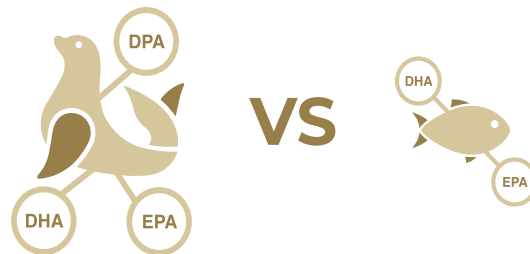

Available upon request and commitment:

- Private labelling
- Alternate packaging, unit or case size
- Bulk oil

Carino's trusted process and certified facilities

Carino Omega 3 oil is produced to the highest standards in the world, and our supplements are tested for purity, safety, and levels of DHA, DPA, and EPA. Our advanced refining process purifies the oil by removing environmental toxins and impurities without altering the properties of the seal oil itself. This means you get a 100% natural, fresh, pure, healthy product.

A superior source of omega-3 fatty acids

A smaller amount of seal oil is equally or more effective over fish and plant-based oils and, because of its mammalian molecular structure, seal oil is more easily absorbed by your pet.

Protect those with the biggest hearts of all

Our dogs and cats love us unconditionally (well our dogs do!), so we should take care of their hearts. Seal oil supports a healthy cardiovascular system by increasing good cholesterol, reducing hypertension, boosting oxygen in the blood and repairing damaged vessels.

Say goodbye to sneezing and itching

Pet allergies are no picnic. They can irritate your pet's skin, affect breathing or simply cause general unpleasantness. Hypoallergenic food, medications and ointments can fetch a large price tag too. Introducing seal oil to your little buddy's diet can keep both allergy symptoms and vet bills at bay, while you can take comfort in knowing they're comfortable.

A smart choice

Seal oil: good for heart, body and mind. This wonder supplement has been proven to increase neurological development and cognitive function in cats and dogs, so good luck faking the throw at the park now!

Unleash some wellness today

Seal oil is an amazing product that can make a good pet even better. Plus it's also fantastic for the fetal and infant development of puppies and kittens.

Our seal oil is of a particularly outstanding quality as well, sourced from the icy cold, pristine North Atlantic waters on Canada's rugged east coast. Did we mention that, as another added bonus, it also tastes great? No fighting with your pet like you would with other medicines. They'll love the flavour!

Omega-3 fatty acids are shown to reduce arthritis, enhance skin & coat health (reducing allergens), support heart health, boost immune system & promote puppy & kitten development.

Directions

Add to your dog or cat's food daily according to the recommended dosage. Use regularly for best results. Store away from direct sunlight. Use within 6 months of opening or refrigerate after opening.

Recommended Dosage

1 tsp = 5 ml (4500 mg)

Body Weight Teaspoon

<5 kg	¼ – ½
5 – 10 kg	½ – 1
10 – 25 kg	1 – 2
>25	2 – 3

We recommend these as starting dosages. You may adjust up or down depending on the food you use, or your pet's individual needs.

Medicinal Ingredients:

Per 5 ml (1 tsp)

Harp Seal Oil	4500 mg
Omega-3 Fatty Acids	
EPA (Eicosapentaenoic Acid)	270 mg (6%)
DHA (Docosahexaenoic Acid)	360 mg (8%)
DPA (Docosapentaenoic Acid)	171 mg (4%)
Total Omega-3 Fatty Acids	1035 mg

Ingredients: Natural harp seal oil, alpha-tocopherol
